EXPERIENCES

Frontend Fusion, Minas Gerais - BRAZIL — *Frontend Developer*

OUT 2024 - CURRENT

- Created responsive and highly optimized interfaces, boosting speed by 30% and ensuring a smooth user experience.
- Created responsive website pages across more than 10 devices, ensuring customer satisfaction.
- Designed graphical interfaces based on Figma designs.
- Developed applications using Next.js and TailwindCSS, saving up to 20% of delivery time.
- Implemented state management solutions to ensure smooth usage.
- Resolved long data loading issues, improving performance and user experience.
- Managed state with Zustand and implemented caching.
- Actively participated in task organization and prioritization in agile methodologies.
- Enhanced collaboration between teams using project management systems like ClickUp.
- Used the git-flow system for version control and project organization.

Sonho Bom Sorveteria, Freelancer - BRAZIL - *Web Developer*

ABR 2024 - MAY 2024

- Transformed the digital service of an ice cream shop, improving the service process by over 100%.
- Developed a complete website using HTML, JavaScript, and TailwindCSS, optimizing loading speed and enhancing user experience.
- Implemented an interactive end-to-end ordering menu, increasing customer productivity by 40%.
- Created a shopping cart modal to manage real-time orders, reducing order errors by 75%.
- Reduced in-store queues and wait times by 60% through the possibility of placing advance orders.
- Integrated WhatsApp API for automated order sending, streamlining communication between customers and the ice cream shop.
- Designed a responsive layout to ensure accessibility on mobile devices, improving the reach of the target audience.
- Made it easier for customers to browse and select products through the interactive menu, resulting in greater engagement.
- Accelerated customer decision-making with clear and well-structured product information.
- Increased online visibility and accessibility, attracting new customers to the ice cream shop.
- Improved customer satisfaction with a simple and straightforward ordering process.
- Enhanced business scalability potential by allowing future integration of new features.
- Differentiated from local competitors, positioning the ice cream shop as an innovative and modern establishment.
- Optimized code to reduce loading time, increasing user retention on the website.
- Conducted detailed functional testing to ensure usability and performance of the cart modal and menu.
- Maintained active communication with the client during development to ensure the features met expectations.

Money Manager, Personal Project - BRAZIL – *Fullstack Developer*

MAR 2024 – MAY 2024

- Designed and developed a complete full-stack application for personal finance management, ensuring a 60% saving on premium subscriptions.
- Created a robust and modern solution that simplifies financial management, allowing users to record and track transactions.
- Developed the front-end using React, TypeScript, and Tailwind CSS to ensure a responsive and user-friendly interface.
- Implemented advanced filters for transaction search, using custom logic in React.
- Developed the back-end with Node.js and Express to manage application logic and communication via RESTful API.
- Delivered a system that presents interactive monthly charts, providing a clear view of income and expenses.
- Integrated a dynamic calendar using React-Calendar for intuitive date navigation.
- Configured and managed a PostgreSQL database, ensuring data integrity and performance.
- Monitored assets in real-time, increasing users' ability to make informed financial decisions.
- Created endpoints in the RESTful API to register, search, and filter transactions, with optimized JSON responses.
- Developed the application with a focus on organized code and scalable architecture, facilitating future maintenance and expansion.
- A solution that combines responsive design and performance, providing a smooth experience across multiple devices.
